

RAMIZ ALI MOHAMMED

Software Engineer

Aden, YE • +967 777366265 • ramiz.apk7@gmail.com • ramizapk.github.io/ramiz

PROFESSIONAL SUMMARY

Results-driven Software Engineer with over 4 years of experience designing, developing, and deploying scalable web applications and enterprise systems. Proficient in modern full-stack technologies including Next.js, Laravel, and C#. Proven track record of delivering end-to-end solutions—from complex databases to responsive user interfaces—that optimize business operations and meet rigorous client requirements.

WORK EXPERIENCE

Software Engineer | Salasa 2025 – Present | Remote

- Architected and deployed enterprise-level web applications, building robust e-commerce platforms, educational systems, and a comprehensive document management system from end to end.
- Designed and developed a large-scale laundry management application, overseeing full stack implementation from secure backend APIs and scalable databases to intuitive front-end interfaces.
- Utilized Laravel, C#, and Next.js to build high-performance, bilingual web solutions, ensuring seamless data integration and consistently delivering complex projects within strict timelines.

Web Developer | Freelance 2021 – 2024 | Online

- Managed the complete software development lifecycle for diverse clients, acting as the sole developer to deliver scalable e-commerce stores, dynamic personal portfolios, and custom web solutions.
- Engineered a comprehensive real estate sales and rental management system, building the underlying relational database and the user-facing property listing and administrative dashboard interfaces.
- Built the complete architecture for a robust delivery application, ensuring responsive UI/UX and highly efficient backend database transactions using Next.js, React, and Laravel.

Software Developer | Emirates Red Crescent 2019 – 2020 | Aden, YE

- Designed and implemented critical internal systems entirely from scratch, including a secure Document Archiving System and an advanced Warehouse Management System.
- Developed a specialized platform connecting engineers with contractors, heavily improving operational communication and project assignment efficiency across departments.
- Collaborated closely with organizational stakeholders to translate complex humanitarian and logistical requirements into reliable, user-friendly digital solutions.

TECHNICAL SKILLS

Frontend

Next.js React Vue.js

JavaScript Tailwind CSS

Bootstrap HTML5/CSS3

Backend & DB

PHP Laravel C# SQL

MySQL

Tools & Arch.

Git & GitHub RESTful APIs

System Arch. Figma (UI/UX)

EDUCATION

B.Sc. Computer Science & Engineering

Faculty of Engineering, Aden Univ.
2016 – 2022 | Aden, YE

Front-End Web Dev Bootcamp

Re:Coded Online Immersive
Nov 2022 – May 2023
